Bespoke backgammon

Luxury, made magical

Welcome to the world of Bone Club, where luxury meets the timeless game of backgammon. Elevate your gaming experience with our collection of backgammon boards, meticulously crafted for those who appreciate the finer things in life.

Enjoy our handcrafted backgammon boards, designed with a passion for both artistry and precision. Each board is a masterpiece, a fusion of exceptional craftsmanship and opulent materials, that transcends the ordinary.

We choose only the finest premium materials. From the smoothest leather to the rich luster of exotic woods, every detail is designed to create a sense of luxury.

Whether you're a seasoned backgammon enthusiast or someone looking to add a touch of sophistication to your leisure time, Bone Club offers a range of stunning backgammon boards that will suit you. Our boards are a statement, a symbol of fine taste.

Take your game to a new level of luxury.

Decisions decisions

Choosing the right board

The journey to create your dream board is an wonderful experience, a real memory maker.

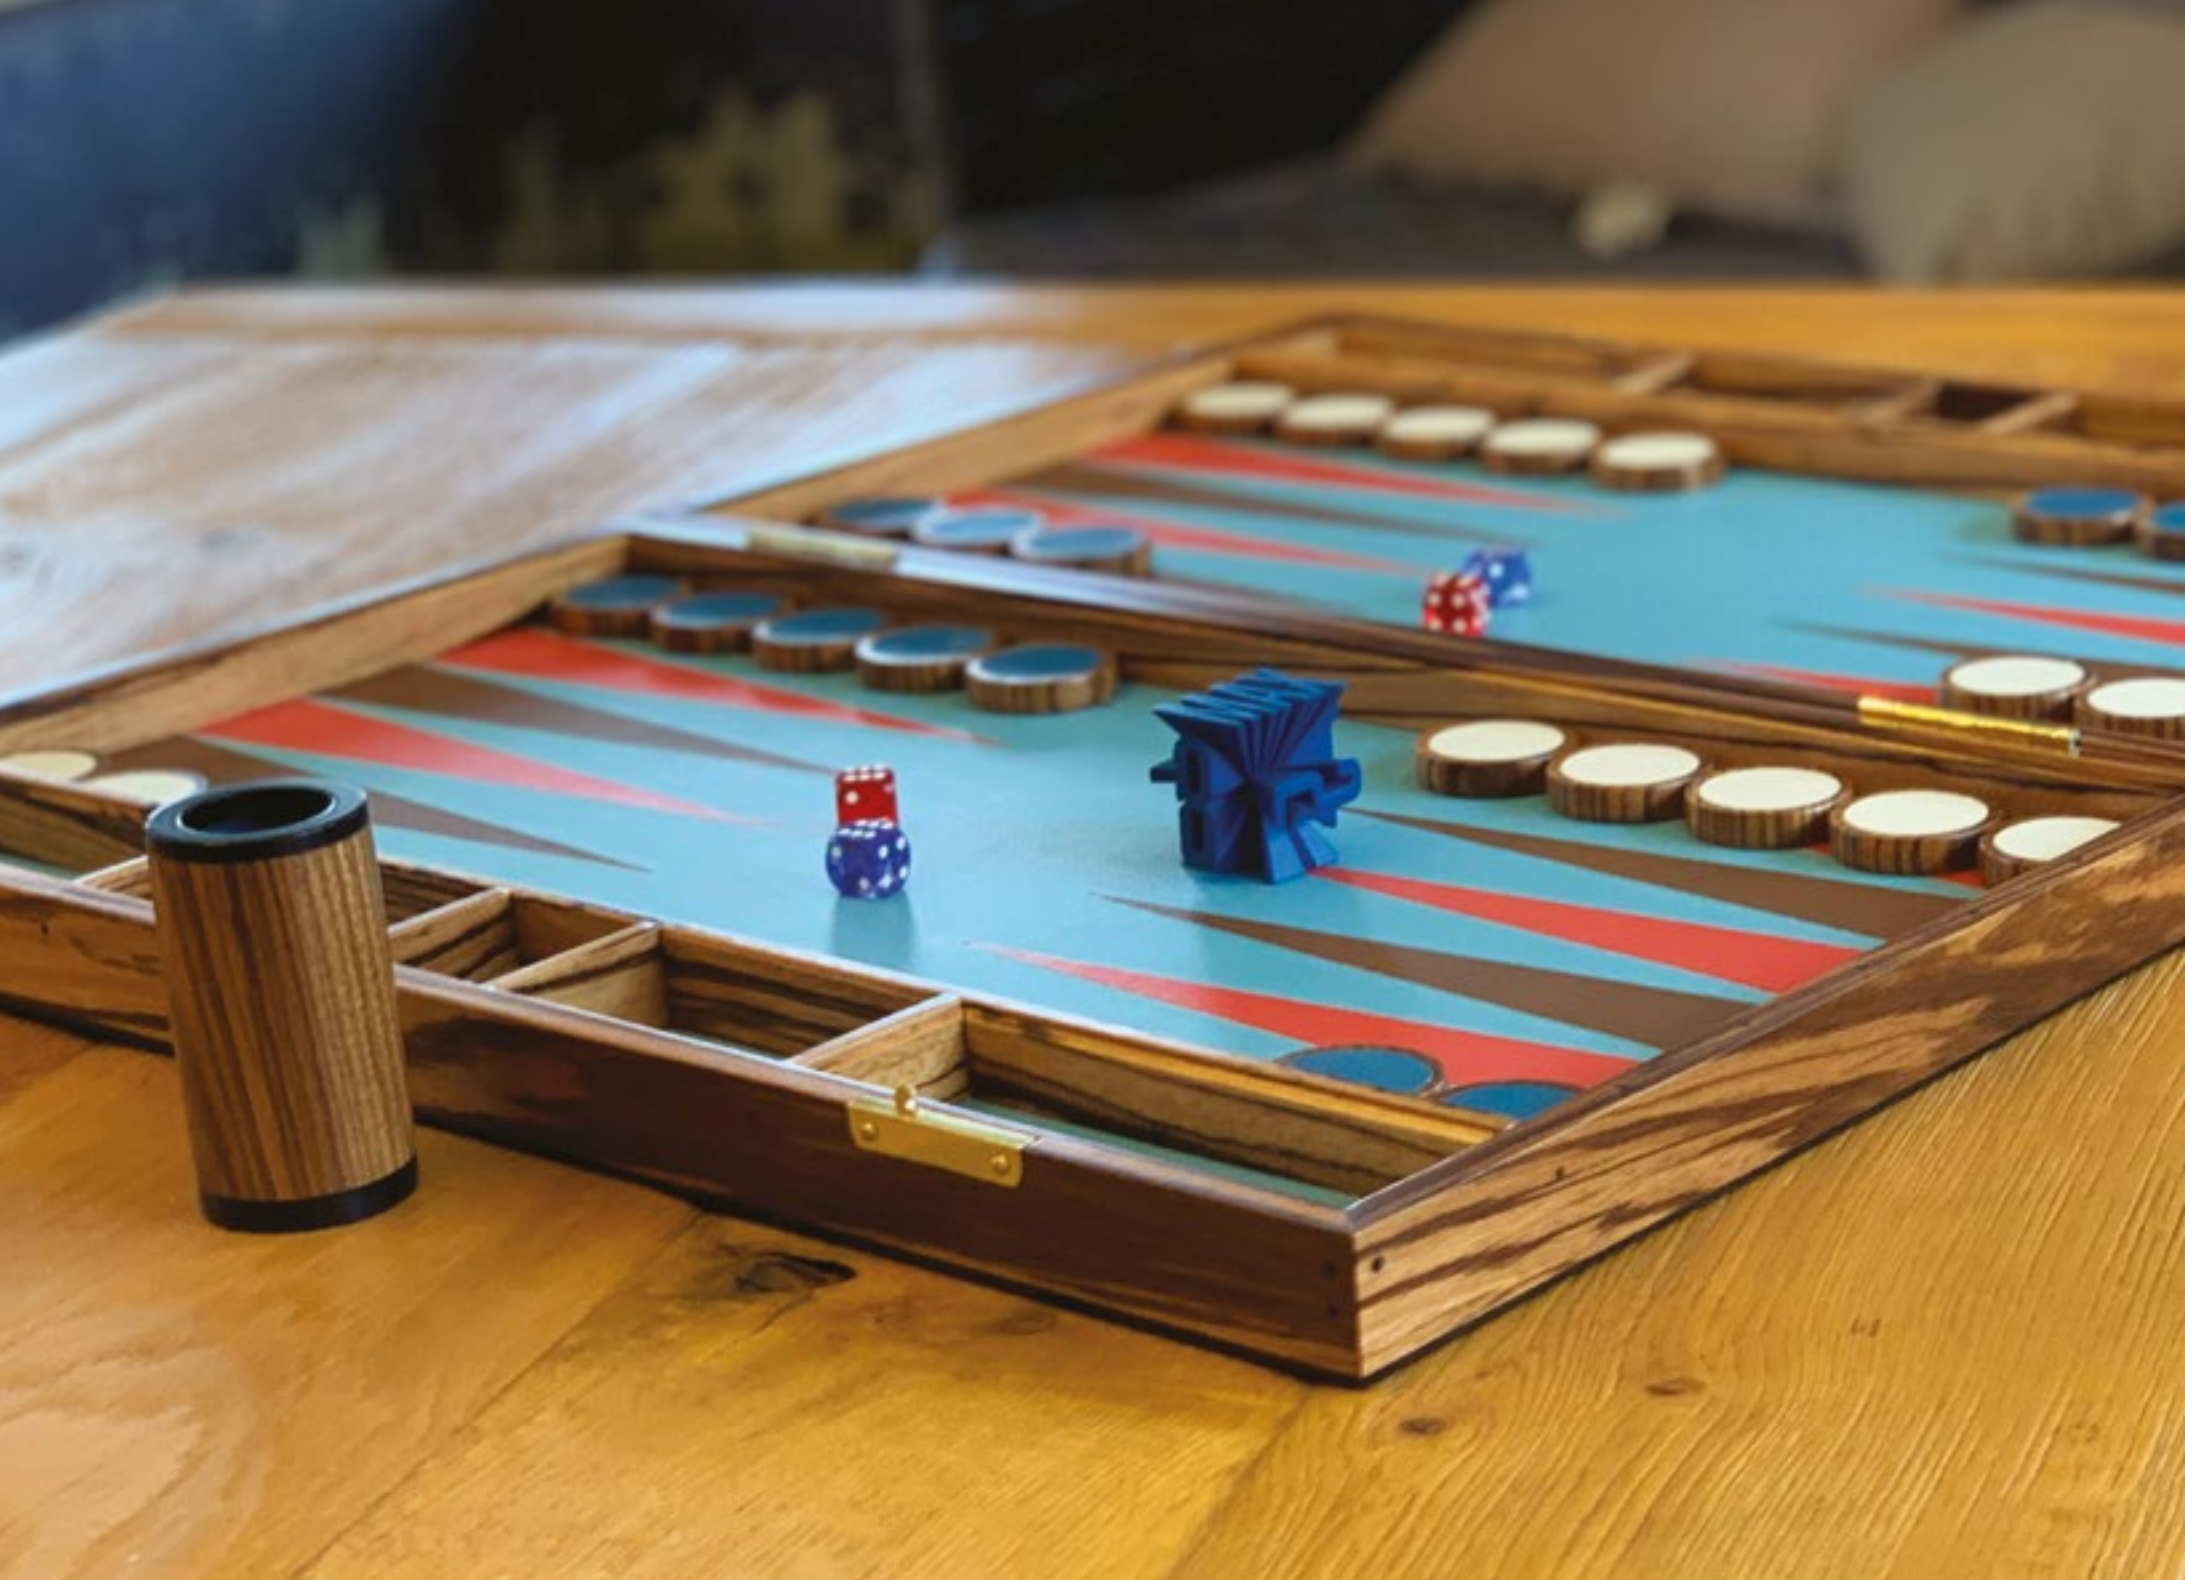

Our team can help you navigate the decisions needed to build your board. Our colour specialist will make sure you choose the best palette. There are so many ways to reflect your personality in a Bone Club Backgammon set. We will always ensure you arrive at the right board for you.

There are many things to consider, like how and where you generally play. Whether the board will travel to tournaments or be an artisan piece on display?

Also think about the aesthetics:

- do you like the feel of classic soft leather?
- does a natural sleek grain and the figuring of wood appeal to you?
- what is your preferred colour palette? Bright and contrasting? Muted and soft? Classic or contemporary?
- would you like the board furniture set in a brass or nickel finish?
- have you thought about personalising the “exploded” cube and the board itself?

Our boards are designed exclusively by our founder & master craftsman Guy Haslam. Every Bone Club board is handmade in Lancashire, England.

Goldie

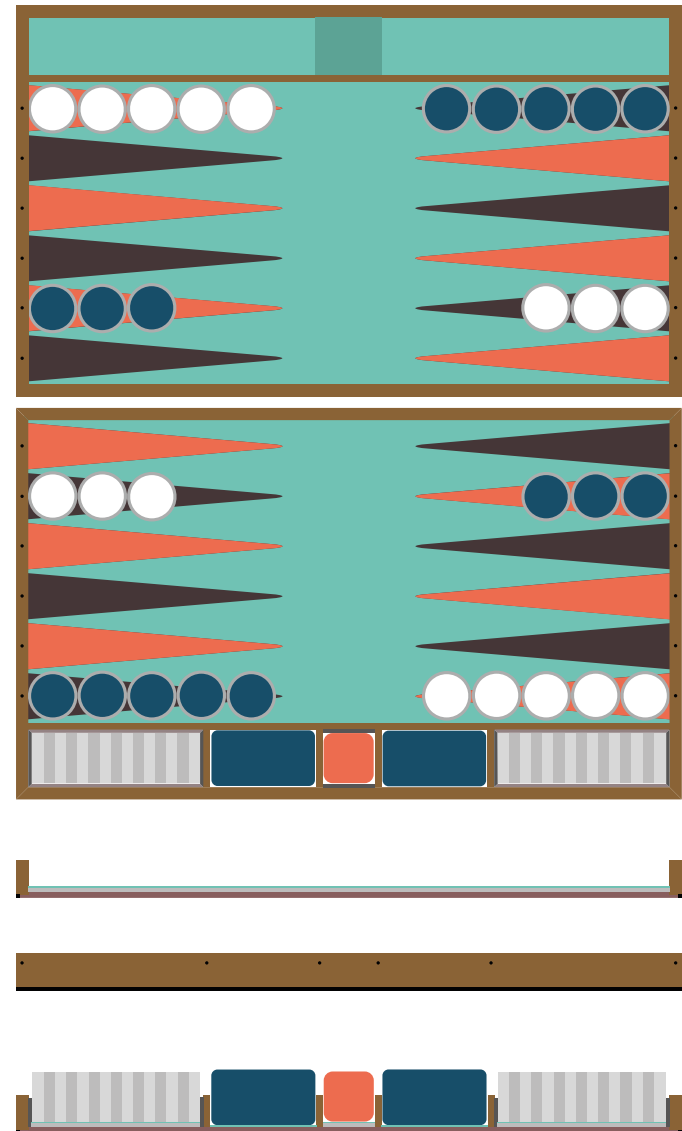

A zebrano attaché

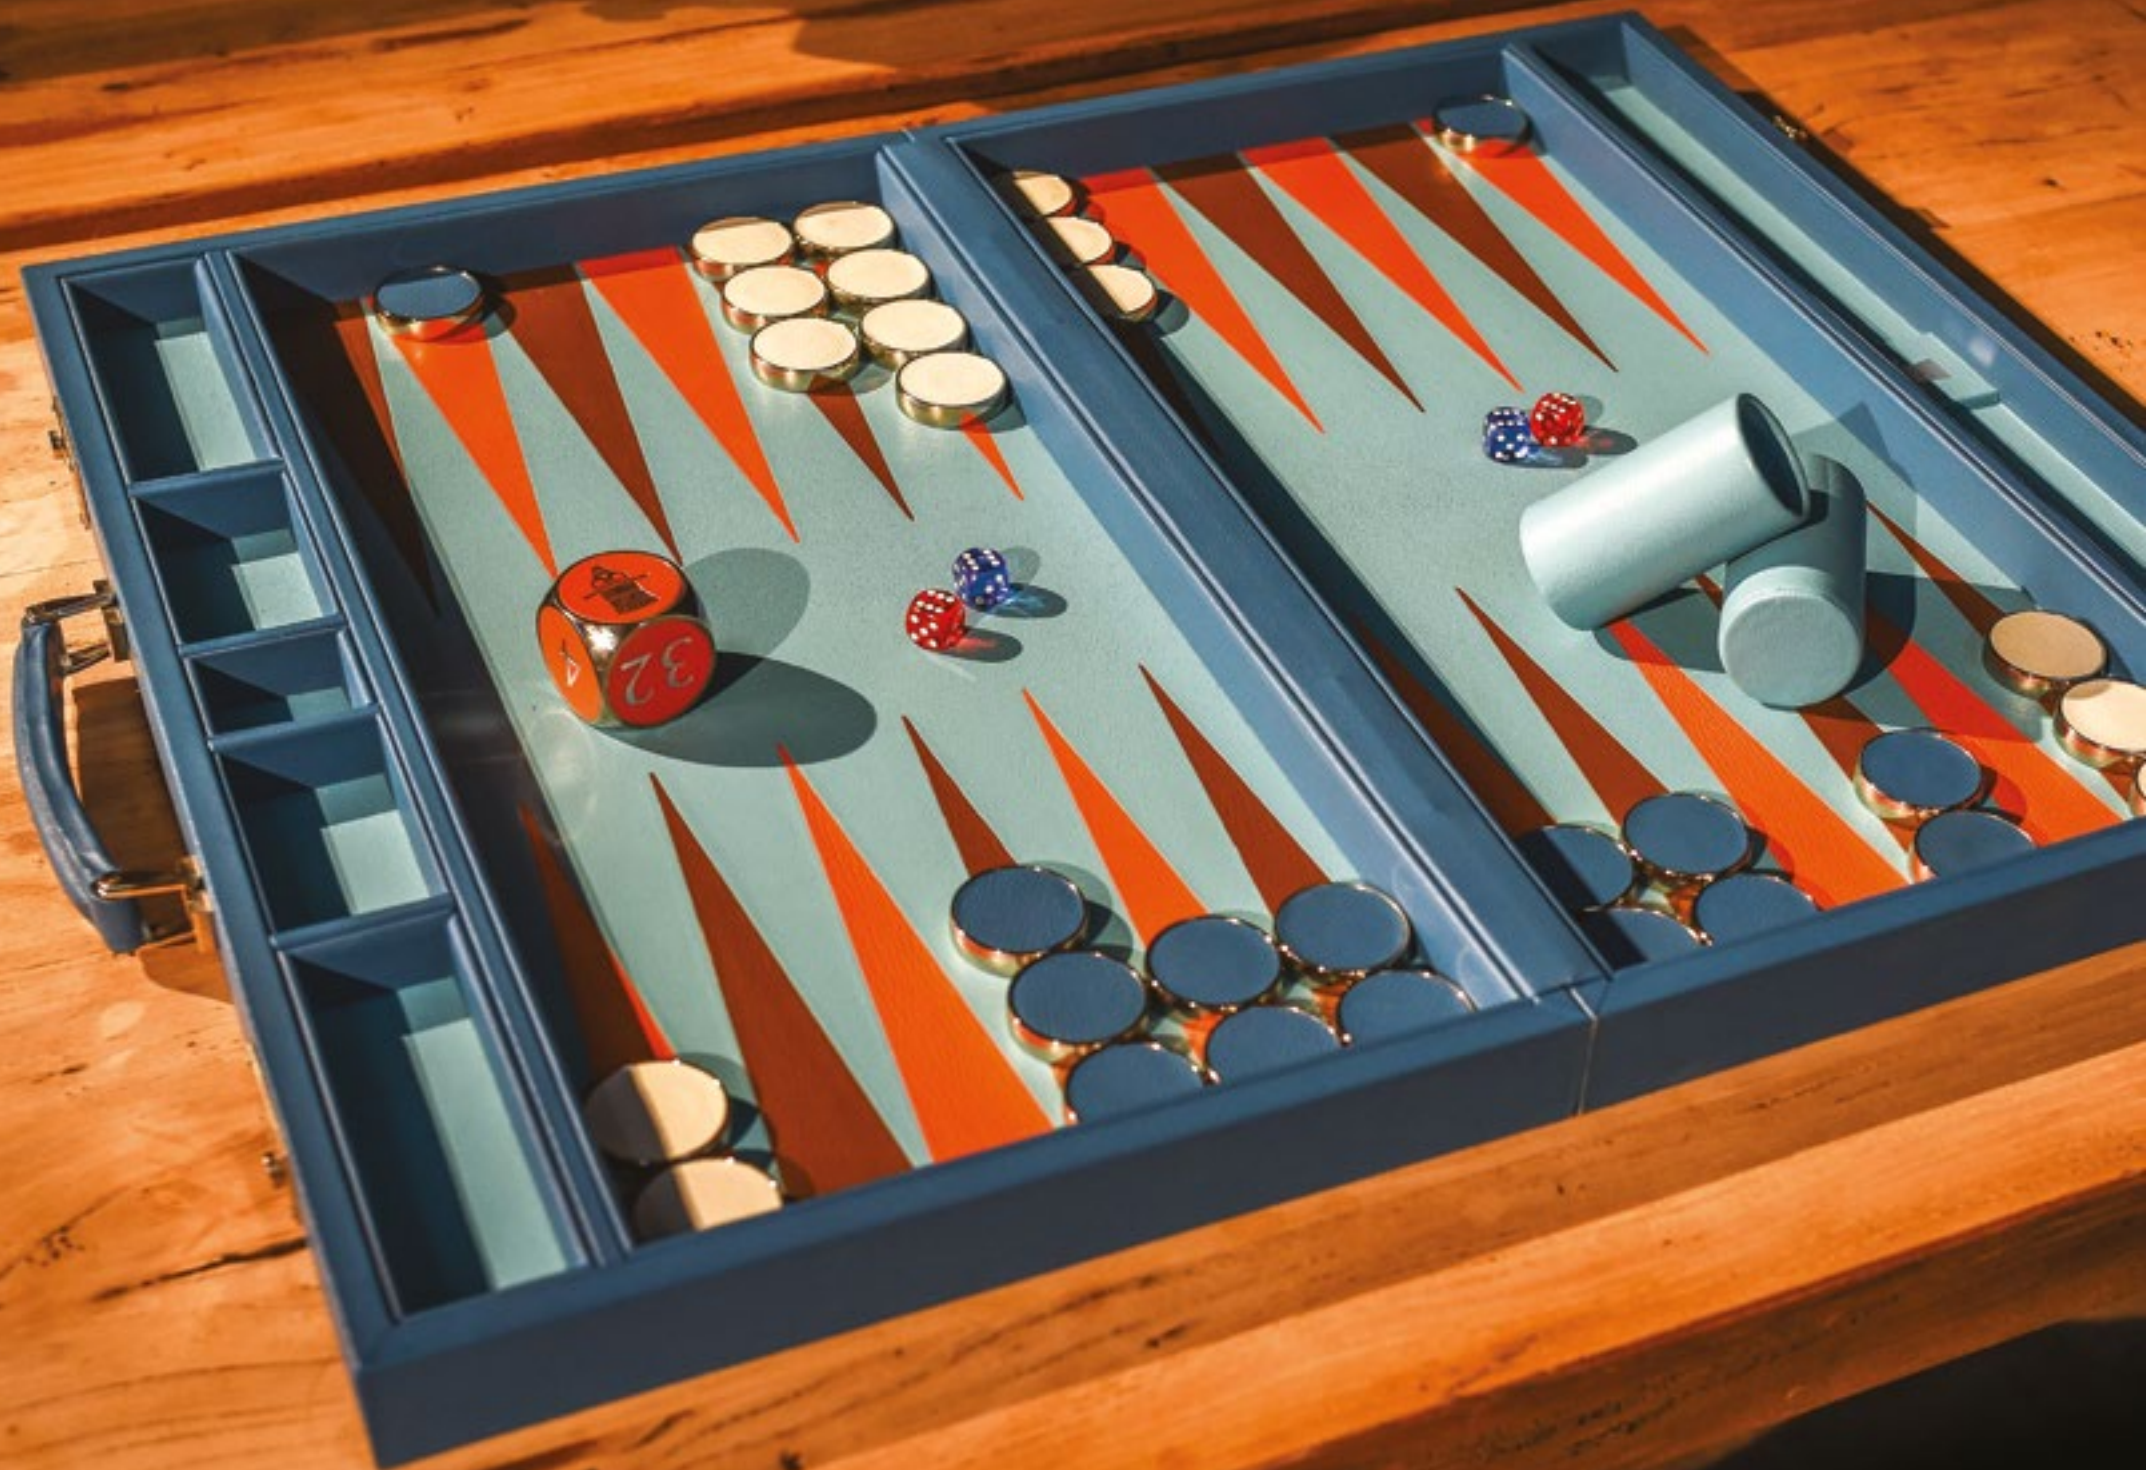

Microberlinia brazzavillensis

A true statement piece, this zebrano and ebony timber board is a guaranteed eye catcher. With an optional handle this stunning board is perfect on show in the home, or for tournament play. The field provides the pleasure of a fast and sophisticated game of backgammon. Choose from our huge range of leathers for your perfect playing field.

The zebrano checkers are beautifully finished with inlaid leather. These game pieces are turned, smoothed and weighted to perfection, allowing them to glide across the board during play.

Many playing surface colour palettes complement the wildness of the zebrano, and the combination is simply stunning.

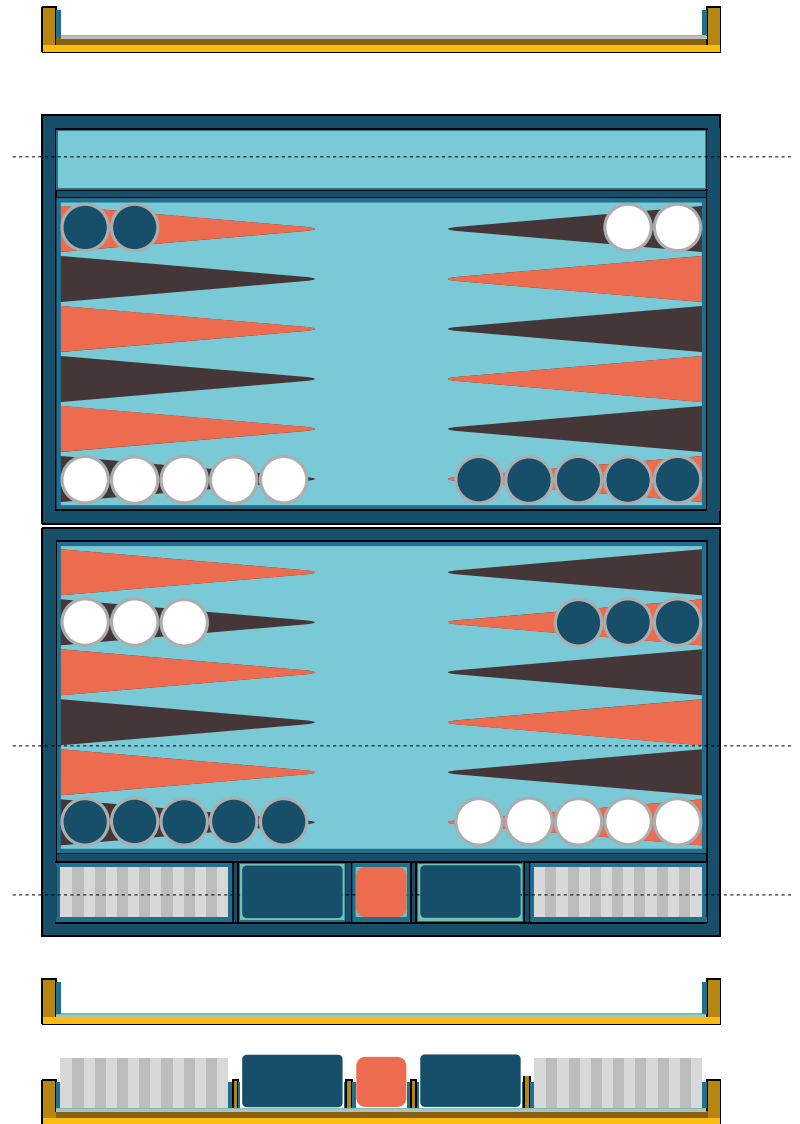

Bowie

A leather attaché

This attaché case backgammon board is designed for its ease of portability. The beautiful design will be perfectly at home, in a tranquil living room or an international backgammon tournament.

The leather playing surface, with optional inlaid pips, is pure luxury which lends itself to a fast and forgiving game of backgammon.

Checkers are nickel or brass with inlaid leather. The shakers are also made from leather and include trip lips for tournament play.

Wonder

'Pale moon' ebony attaché

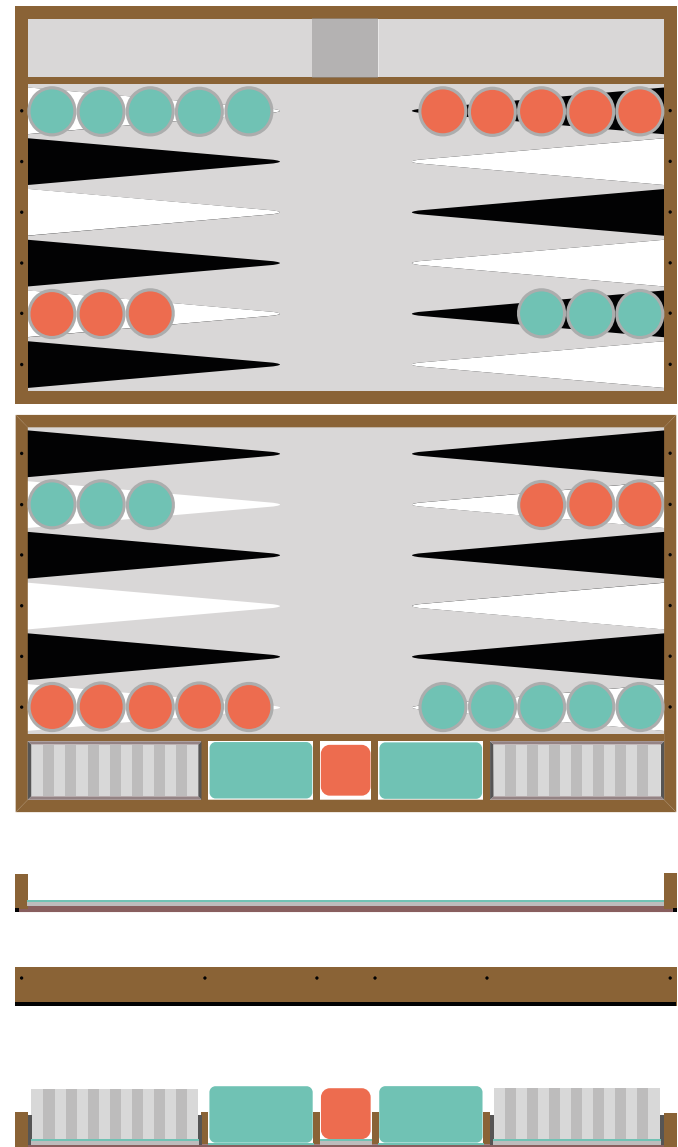

Diospyros malabarica

The rare black and white or 'pale moon' ebony wood is sourced from around the world. This solid timber has a beautiful smokey contrasting black and white figuring. The striking effect ensures that every board is unique.

An absolutely stunning board, perfect to be on show in the home but also gives you the opportunity to play an unforgettable game of backgammon.

The shakers are turned from 'pale moon' ebony, with trip lips and lined leather.

The 'pale moon' checkers look beautiful as they move across the board. Finished with leather from a colour of your choice. A monochrome leather playing field would complement the ghostly ebony perfectly but the choice, as always, is yours.

Davis

Walnut & leather attaché

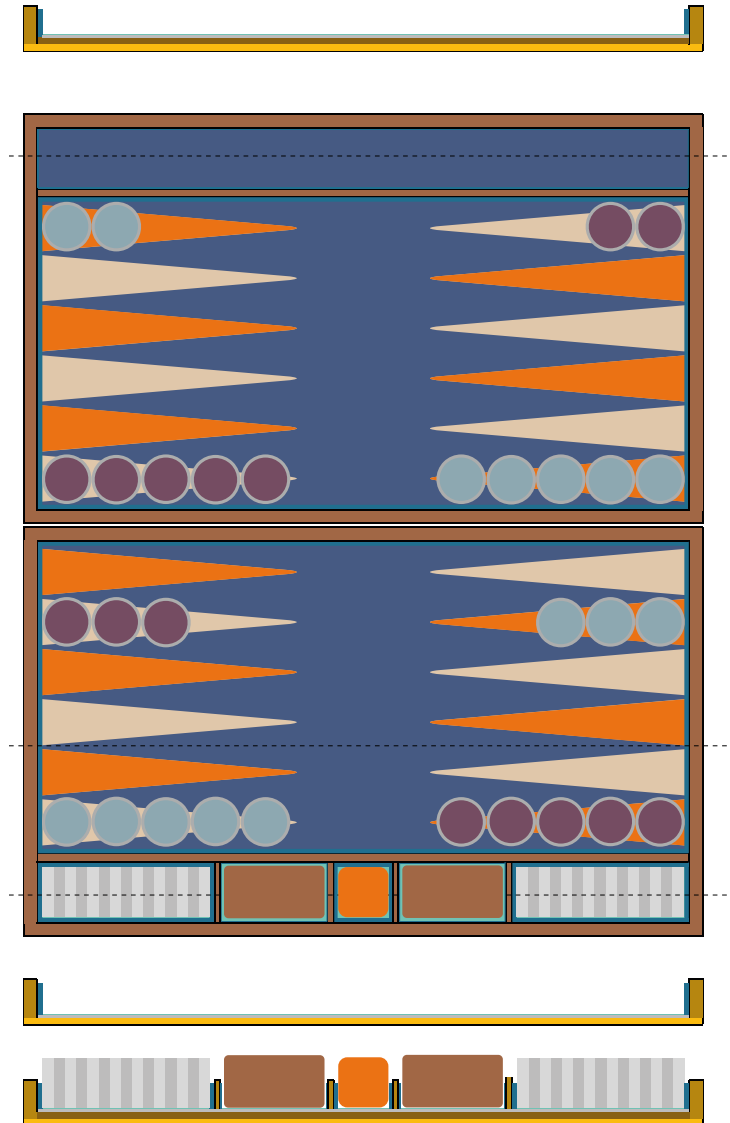

Juglans nigra

American black walnut exudes sophistication and the case has fine detailing in contrasting materials, such as ebony or brass.

The playing surface is made with a high quality leather playing surface, you can choose inlaid pips or printed ones. With the wonderfully rich walnut outer there are endless colour palettes that complement this board.

Finish this board with either nickel, brass or walnut checkers. Pieces are individually turned, weighted to perfection, with curved edges and inlaid leather calfskin in contrasting colours.

The shakers are made from walnut and have trip lips for tournament play.

Marley

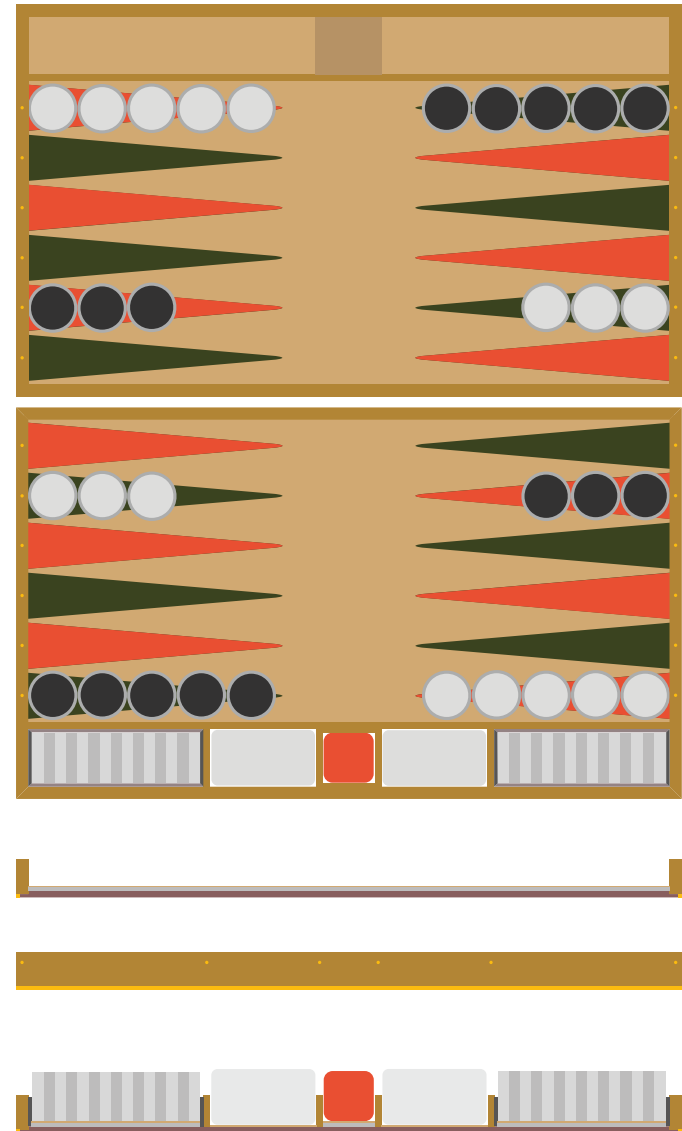

Oak attaché

Quercus robur

European oak provides a warm, mellow look to this board. The case has fine detailing in contrasting materials, such as ebony or brass. Finished with a natural wax, the depth and grain of the oak elevates this board to a beautiful piece.

Inside the case the leather playing surface offers a luxurious feel which really lifts your gaming experience. So many of our leather colours complement the oak, making it one of our favourite timbers to work with.

For this board you can add the finishing touches with nickel, brass or oak checkers. Each of these pieces are individually turned, with curved edges, so they feel great in the hand, and finished with inlaid leather calfskin in contrasting colours.

franklin

Zebrano & leather attaché

Microberlinia brazzavillensis

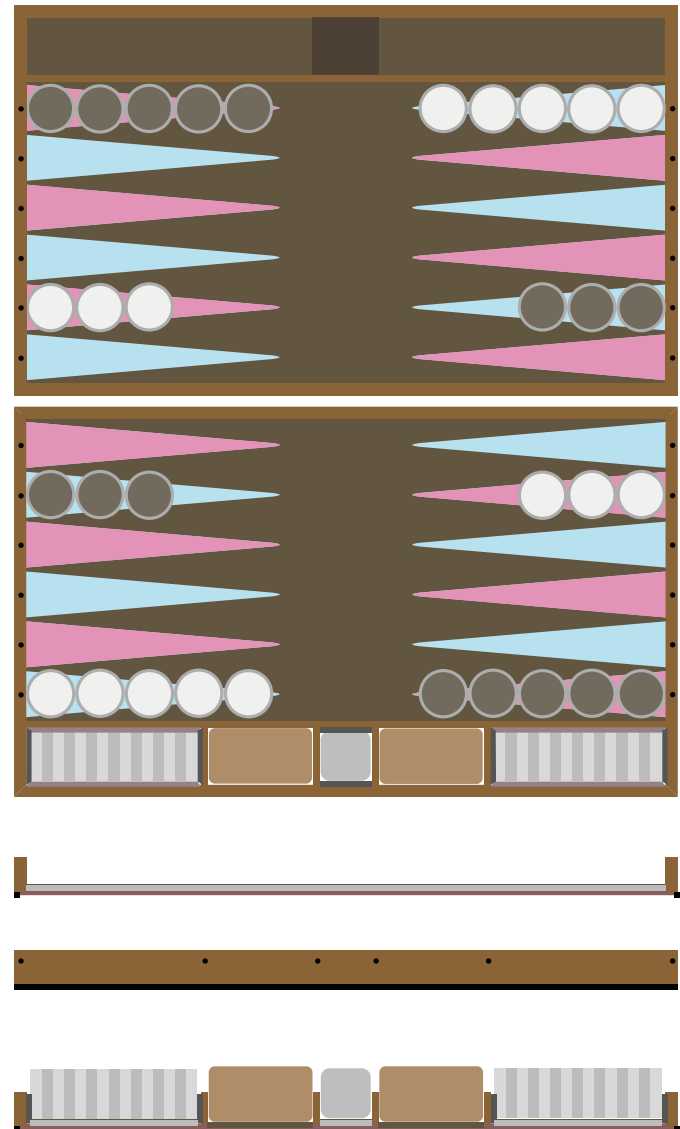

This zebrano attaché is also available in any of the timbers within our range.

The difference in design to our other attachés is that the inner walls (skinners) are made from leather and not timber. This provides an added softness and luxury feel, delivering a quieter game.

The leather surface is printed in this picture but the board is also available with inlaid leather, the choice is yours.

For this design we offer checkers in acrylic, metal or wood. The leather inlays for the checkers can be personalised too with a logo or initials, as shown in the picture.

We are always happy to bespoke as much of the board design as you desire. Such as a custom Chouette doubling cube set, as shown.

Ashcraft

Walnut & oak tournament tabletop

Juglans nigra & quercus robur

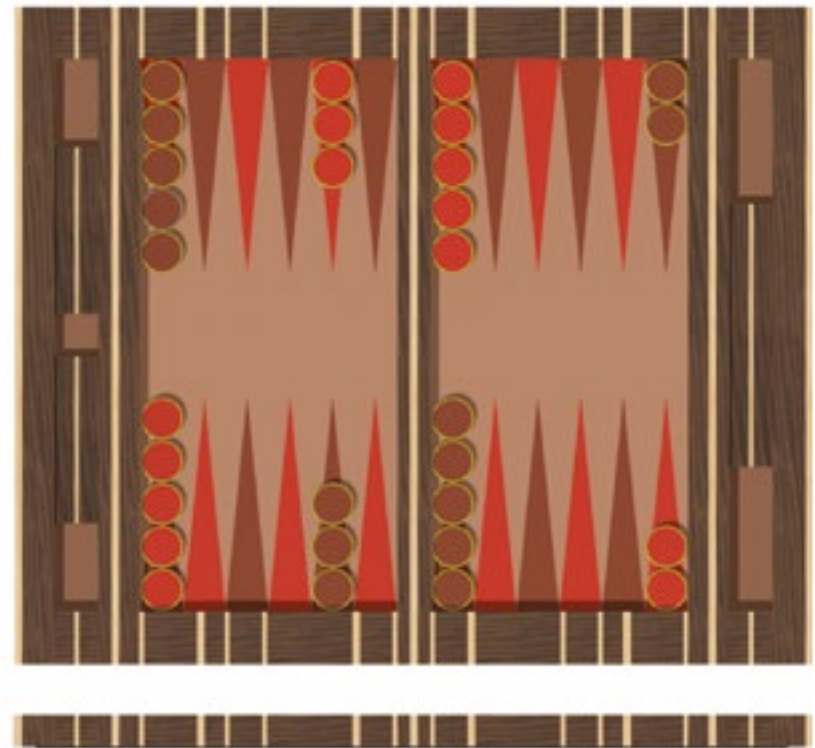

Solid walnut and oak are laminated together to create the tabletop board. The dimensions have been calculated using the 'golden ratio' and the Fibonacci sequence making the board is both mathmatically and aesthetically beautiful. Different timbers or materials are joined together to provide a unique design in perfect balance, stunning to look at.

Inlaid custom leather playing surface presents a luxurious feel, contrasting well with the wooden outer and proving a fast but quiet board.

For this design we offer 44.5mm checkers in acrylic, metal or wood with the customary leather inlays.

Shakers are available in complimentary woods. Hand turned with inlaid leather and trip lips.

Personalised ball cornered cube or 'exploded' cube.

Shakaka

Macassar ebony & brass tournament tabletop

Diospyros celebica

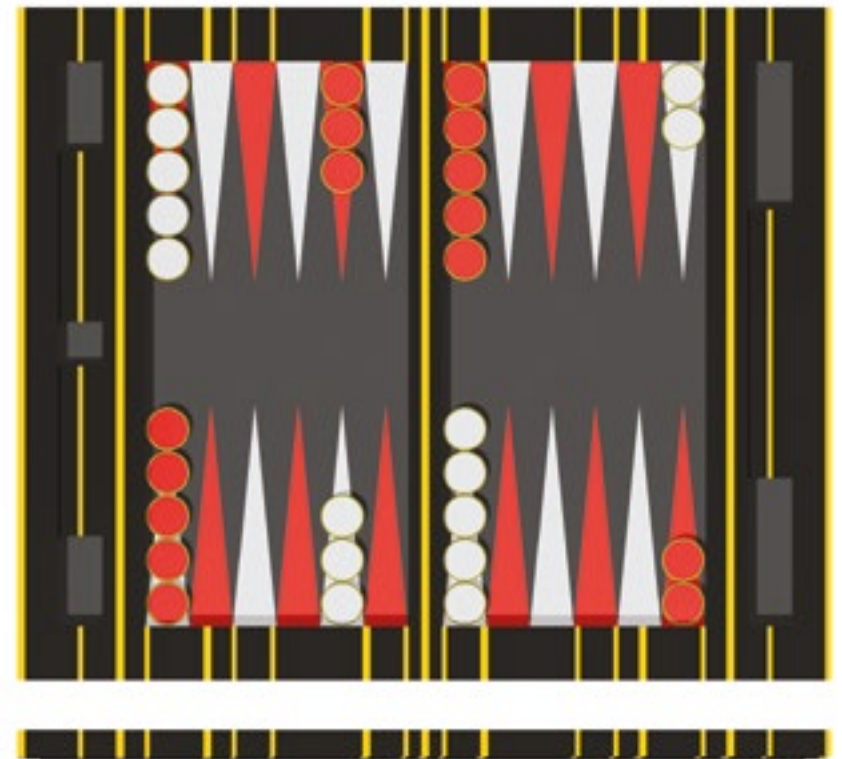

This is our showcase board, a real showstopper made with the most luxurious of materials, rare Macassar ebony and solid brass.

This tabletop finds perfect balance with dimensions taken from the 'golden ratio' and the Fibonacci sequence.

The highest quality calf leather is used to make a custom leather playing surface which gives a luxurious feel. Colours are your choice, but the quality is second to none.

The only checker that does this board justice is solid brass. 44.5mm checkers with inlaid leather, customised to your designs and palette.

The board is completed with ebony and brass turned shakers. Exquisite to touch and finished with inlaid leather and trip lips.

Gallagher

Outdoor / indoor corian table

Corian®

Corian® Table Top

JigSaw inlaid Corian® solid surface backgammon field available in many colours. These tables can be used indoors or outdoors.

Table Options

- a. Flat table top
- b. Sunken playing field
- c. Rise & fall playing surface

Table legs

The base of the table can be made to any design. The design shown is made from iroko wood with an oil finish. There is a shadow gap giving the impression of a floating table top.

The legs can be made to any height. Available timbers include walnut, oak or teak.

Doubling

The doubling cube adds a level of strategy and excitement to your game. When the stakes are high you want to offer your opponent a cube that delivers impact. The Bone Club range of doubling cubes do just that.

The Bone Club acrylic cube

25mm frosted square cube
Bone Club logo on 64 face

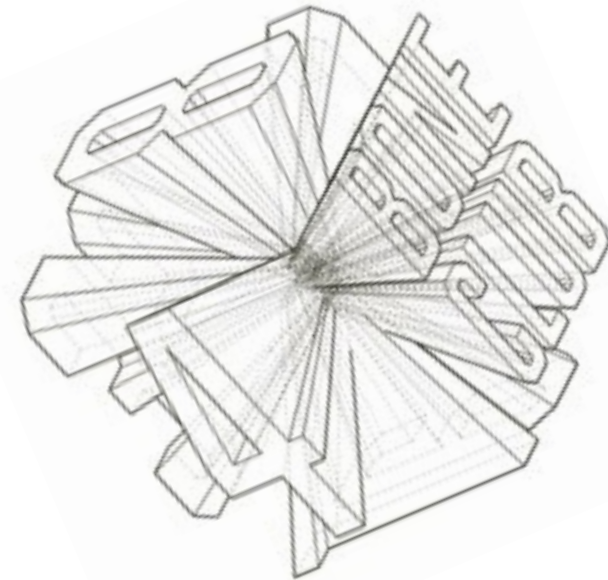

Our unique exploded cube

A complete show stopper. Have this unique cube, designed by Guy Haslam, personalised on the 64 face with your initials, name or logo.

Available any size up to 50mm in many materials: plastic, steel, copper, stainless steel, silver, brass, bronze, aluminium or gold.

A classic ball corner cube

44.5mm nickel plated aluminium cube with hot foil embossed inlaid leather faces. The 64 face can be personalised with initials or a simple logo. Also available in solid brass.

Checkers

We know how important your checkers are to your enjoyment and engagement of the game. How your checkers move, how they look and their tactile satisfaction all contribute to how you feel when you play.

The Bone Club checkers will match all your desires and expectations. Built from durable materials such as wood, metals and acrylics. Each checker is weighted to glide across the leather surface with no tension.

Their distinctive design with smooth curved edges mean they feel wonderful in your hand. A real pleasure to hold. Easy to stack in our boards, our checkers come in standard sizes so you feel in control of your moves.

We offer three size variations:

Classic - 38 mm

Tournament - 44.5 mm

Competition - 50 mm

All of our checkers can have customisable leather printed inlays for that extra personal touch.

shakers

When it comes to rolling your dice we want to ensure you have a shaker or dice cup that is easy to handle and gives you a fair, pleasurable and consistently unpredictable roll every time.

Crafted from leather or timber, our shakers are long lasting, giving you a comfortable roll time and time again.

Our matching pairs can be made in contrasting leather or complimentary woods. All are lined with leather to minimise the noise of the dice shaking and will include leather or metal trip lips for legal competition play.

The cups can be stored in the board's side compartments for ease of use and are perfectly balanced and weighted to feel good in the hand.

We offer the Bone Club shakers in either 45mm or 50mm diameters.
